## PROFESSIONAL SUMMARY

Highly motivated and analytical professional currently pursuing a bachelor's degree in Computer Science at Queen Mary University of London complemented by strong attention to detail and quick learning aptitude; poised to excel as a Software Engineer Intern.

## WORK HISTORY

### COGNI.DX LTD

**Front-End Web Developer** | London, United Kingdom | June 2021 - September 2021

- Enhanced front-end performance through optimization and clean coding practices.
- Developed landing pages, dashboards and online applications using HTML, CSS, PHP, and JavaScript along with other libraries.
- Designed unique and eye-catching games by meticulously creating graphics and visuals using JavaScript and its frameworks.
- Performed responsive, user-friendly front- and back-end web development across websites.
- Conducted effective troubleshooting and remediation of website functionality issues.
- Prioritized tasks and carefully managed time to consistently meet delivery dates.

### KING FAISAL SPECIALIST HOSPITAL & RESEARCH CENTRE

**Database Developer Intern** | Riyadh, Saudi Arabia | August 2019 - September 2019

- Stored patient data by creating databases for the department of Neurosciences using SQL.
- Created scripts and processes for data integration and maintenance.
- Conducted various numerical analyses of patient data using Python.
- Eliminated downtime by providing substantial information about patient track records to doctors in a shorter period.
- Controlled user-profiles and access levels for each database segment to protect important data.
- Coordinated with project management staff on database development timelines and project scope.
- Modified existing databases to meet unique needs/goals determined during the initial evaluation/planning process.
- Tested programs and databases to identify issues and make necessary modifications.
